

Draft Concept and Agenda of Thailand JCM Seminar

■ **Concept:**

- In order to pursue the Paris Agreement's 2°C target and 1.5°C effort target, and to address climate change, the Government of Japan and the Government of Thailand agreed the new Memorandum of Cooperation on the Joint Crediting Mechanism (JCM) including the Premium Thailand Voluntary Emission Reduction Program (Premium T-VER) at the Joint Committee of the JCM between Japan and Thailand on September 23rd, 2024.
- The JCM aims to facilitate diffusion of, among others, leading decarbonizing technologies, products, systems, services and infrastructure as well as implementation of mitigation actions, thereby contributing to greenhouse gas emissions reductions or removals and sustainable development in Thailand, and the achievement of nationally determined contributions of Japan and Thailand. Both governments implement the JCM in accordance with the relevant domestic laws and regulations in force in respective countries.
- To formulate higher quality JCM projects in Thailand, enhancing understandings of JCM including the new rules and guidelines is necessary in Thailand. Therefore, the objective of this seminar is to share the new rules and guidelines as well as the recent developments of the JCM. The presentation will cover the financing programme which is provided by Japanese side.

■ **Target Audience:**

- 1) Private companies considering introducing equipment using decarbonizing technologies in Thailand
- 2) Government officials

■ **Seminar Title:**

“Seminar on the Joint Crediting Mechanism (JCM) Implementation in Thailand

– Further Contributions to GHG Emission Reductions in Thailand through the JCM –”

■ **Agenda:**
